

ACCP ASSIST

ON-DEMAND SUPPORT FOR MEMBERS FOR THEIR CORPORATE SOCIAL IMPACT QUESTIONS

What It Is

ACCP Assist is a member-exclusive benefit designed to help you navigate day-to-day corporate social impact questions with confidence. Think of it as your direct line to benchmarking insights, peer examples, and practical resources.

**If your question is, “*What are other companies doing?*”
then ACCP Assist is the right place to start.**

What You Can Expect

Through ACCP Assist, members can receive:

- Sample tools, frameworks, and policies
- Peer benchmarking insights and examples
- Connections to peers facing similar challenges
- Relevant research and resources from ACCP’s library and external sources

Great Fit For Questions Like:

- “Do other companies in my industry have an employee matching gift program?”
- “How are peers structuring their grant programs?”
- “Can you connect me with a company taking a similar approach?”

What It’s Not

ACCP Assist does not provide strategic recommendations, design programs, or facilitate workshops. It’s a resource and preliminary benchmarking service, not consulting or training.

Who Can Access It?

ACCP Assist support is unlimited and included with ACCP membership. Requests are submitted through a member-only form on the ACCP website (login required).
